

## What of Pennsylvania?

Within the last few days we have received cheering advices from the 'Rural Districts of Pennsylvania. Gov. JOHNSTON is gaining friends daily, among those who have been heretofore enemies of the Whig party. The dark intrigues of a few Cotton Whigs to defeat him—the desperate, unparalleled devices to which the Buchanan tricksters have resorted to arouse a pro-Slavery panic in the East—the Reign-of-Terror doctrines propounded by Kane, Reigart and their confederates, whereby misrepresenting word to a poor fugitive from Slavery that the bloodhounds are on his track is tortured into Treason—all these and the shameful tergiversation and servility of Bigler himself are arousing a glorious spirit throughout the Old Key-Stone. We are well assured that Johnston will stand relatively better in the vote of the Western Counties than any Whig candidate for Governor ever did before, while from the North and East our advisers are equally inspiring. Bradford and Potter Counties in the North gave together 849 majority against Gov. J. when he was elected; our recent advices encourage the hope that they will give no majority at all against his reelection. From Beaver, Butler, Crawford and Mercer in the West, we have good reasons for expecting a gain of at least 1,000 on his vote in 1848, and glorious old LANCASTER promises him a gain of at least 1,000 more. We expect he will lose in Philadelphia, and perhaps also in York and Schuylkill; but, if the full vote be out, we have great confidence in his reelection.

The following letter shows up the objects and intentions of the present Lower Law Territorial in Eastern Pennsylvania. Judge Woodward, who figures in it, is the man who proposed in the last Pennsylvania Constitutional Convention so to provide in the Constitution as to prevent "any foreigner who may arrive in this State after the Fourth of July, 1851, from acquiring the right to vote or hold office in the Commonwealth"—and who expects to be Secretary of State if Bigler is chosen Governor? Hear! Hear!

HARRISBURG, Saturday, Sept. 27, 1851.  
MR. EDWARD McPHERSON—Dear Sir: In reply to your letter of yesterday, inquiring of me as to the truth or falsity of certain expressions used by me, George W. Woodward, while on a recent visit to this place, I would state, that on entering my hotel, (Buehler's), where I have lived for about two years, and where Judge Woodward was also staying, on the evening of Thursday, the 18th inst., I was immediately attracted by a conversation in an adjoining room, which I could not, by any possibility, avoid overhearing, between Judge Woodward and Mr. McPHERSON, Esq., Vice President of the State Convention, at this place. Judge Woodward was giving his views as to the condition of the two parties, and the probable result of the pending contest for Governor. I heard him say, that while hundreds of Democrats were going out to vote, and that he had seen but one single Whig who would oppose him on account of the agitation about Slavery, and that he was but recently from a sister State, that something must be done to counteract the best thing they could do would be to get up a panic, and frighten the people about a dissolution of the Union! That in the present condition of things it could be easily done, &c.

Mr. McPHERSON said, I, a Unionist with the Judge, we must get up an alarm, and frighten the country on this Slavery question." Judge Woodward continued, and said, "I don't know that there is any cause for alarm, but it is better to raise a false alarm than that Johnston should be elected. It is the substance of what I heard, and the sentences marked with inverted commas are, for word, in the language of the parties.

Very respectfully, &c., JOHN ADAMS.  
The Mayrille Sentinel asserts that The Tribune has objected to Ben. Welch, Jr., the Opposition candidate for Treasurer, that he is going. Says The Sentinel:

"There is one blunder in Mr. W.,—which in the estimate of Mr. Greeley should defeat his election, that of being a young man. That fault is to be found with several of the candidates on our ticket. Yes, young men, it is one of the arguments used against the democratic ticket that it has the names of young men upon it."

—Now we are utterly unconscious of having ever made this objection to Mr. Welch, of whom we did not even remember distinctly that he is young, and did not care whether he is or not, and we must that The Sentinel shall prove the above from our columns or back square out of it. If he were a candidate for Judge of Appeals, we should consider maturity and experience desirable; but we see not why a young man might not be Treasurer as well as another. Will The Sentinel lose the music?

—What we did say of Mr. Welch, so far as we can recollect, amounts to this—that he is bitterly hostile to the policy under which the Erie Canal Enlargement is to be pressed forward—so hostile that his alone of all the Buffalo Democrats approved and rejoiced in the Senatorial break-up of the last Legislature. A man who, living in Buffalo, could take that course, must be very bitter in his aversion to the only practicable plan for completing the Enlargement forthwith. The Sentinel itself says:

"We are aware that in the late struggle on the Canal bill, Mr. C. considered some other billings towards him in Buffalo by reason of his preference to act as a Democrat, even though that course ran counter to local interests. He showed to the party of what kind of material his Democracy was made up of—that, though interested in millions and cents, he would suffer, if he would still be a Democrat—and this convinced him to the party of the State and procured his nomination upon the ticket."

—That's it, you see! He was nominated not merely in spite of his anti-Canal views, but because of them, and is on that ground commended to support. Canal men! do you hear?

## NORTHERN NEW-YORK.—A correspondent at Keeseville sends us a melancholy account of the prostration of Business and paralysis of Industry throughout the Champlain region of our State in consequence of the inability of our iron-makers to produce iron so low as it is imported under the present Tariff. The Northern New-York iron is about the strongest and for many uses the best in the world, but it cannot be made for so few dollars per ton as the inferior British iron, where with our markets are now flooded. The result is wide-spread disaster throughout the Iron-region, affecting not merely producers of the metal, but laborers, farmers, merchants, and all classes.

We will not print our correspondent's letter, preferring to wait and let the Iron region indicate its grievances and needs at the polls. If its people really want a change of policy, let them say so by their ballots next month. To talk in favor of Protection, yet vote for the party hostile to Protection, is senseless—suicidal. Let Clinton and Essex speak out with no double tongue in November, so that the most unwilling shall understand that they mean Protection to Home Industry, and mean to vote so as to secure it. Such votes are sure to tell.

## A Slaveholder's Views.

The following is an extract from the private letter of a Southern friend to the Editor of The Tribune:

"Since you have heard from me, Liberty has retrograded in Europe, apparently. The disposition of my eager ears have listened to news of political movements favorable to the rights of the colored people, but from that quarter I am almost left to despair. It is true, there are many bold and noble spirits, but the struggle is unequal. Deeply do I deplore the favor shown to the Fugitive Slave Law by the Ministers of the Gospel—Law-abiding people they ought to and should be—but they are not. The law, instead of urging its repeal, I am sure they would not—except such as

are interested in owning slaves, and for them I must exclaim, Oh how difficult for them to read their Bibles aright."

"Now, here comes the Cuban agitation. How many are coveting Cuba for the Extension of Slavery, how many for self-aggrandizement, and how few for the pretended object of giving Liberty to the oppressed."

"You will marvel when I tell you that I am a slaveholder."

"My platform is: Education for Slaves, Gradual Emancipation by Colonization and other means."

## Maryland Election.

BALTIMORE, Friday, Oct. 3, 1851.

The 1st District is still doubtful, but the chances are in favor of R. J. Bowie, regular Whig.

In the 11th District, Frederick County gives 78 for Hamilton; Allegany, 23, Washington, 116. Total, 217.

## Intelligence from the Plains and the Far West.

St. Louis, Thursday, Oct. 2, 1851.

Mr. Kendall and several others of the expedition party arrived here yesterday from the Plains, bringing Santa Fé dates to the 24th Sept. Col. Sumner's expedition against Navajo had reached Cynahly, where they intended erecting a fort in the heart of the country. The Navajos were swarming on his rear, threatening hostilities.

The difficulty between Mr. Bartlett and Col. Graham of the Boundary Commission, is still unsettled; the former was progressing with the survey.

A serious fight occurred at the election polls in Bernalillo County, in which three Americans were killed. In some sections Reynolds is getting large majorities over Weightman.

## Late and Important Rumor from Buenos Ayres.

BOSTON, Friday, Oct. 3, 1851.

The brig Abras arrived at Salem, from Rio Grande, August 22, brings rumors that a collision had taken place between the opposing forces in Buenos Ayres, but there are no details to be depended upon.

Produce was scarce, and the Abras has only from a quarter to a third of a cargo of hides.

## Fires in Wilmington.

WILMINGTON, Friday, Oct. 3, 1851.

This morning, between 1 and 2 o'clock, McLean & Co.'s factory, south-west corner of 10th and Orange-sts., took fire, and the building and contents were entirely consumed. The residence of Mr. McLean, adjoining the factory, was also very much injured. The building on 10th-st., west of the factory, occupied as a bowling alley, was also nearly all destroyed. The row of brick buildings closely adjacent was not much injured. Mr. McLean's property was partially insured. There was great sorrow and our vigilant and honest firemen prevented the fire from spreading to the houses.

We had two more fires here this morning which destroyed several barns. A man is in jail suspected of being the incendiary.

## Departure of Governor Letcher from Havana for Vera Cruz.

NEW ORLEANS, Thursday, Oct. 3, 1851.

Havana dates to the 24th ult., received here state that the Cutter Forward had sailed, with Governor Letcher on board, for Vera Cruz. Havana remained perfectly quiet.

## The Late Explosion of the James Jackson—The Utah Delegate.

LOUISVILLE, Thursday, Oct. 2, 1851.

Captain Patterson, Commander of the U. S. steamer James Jackson, was arrested at Shawneetown after the explosion, but upon investigation, he has been acquitted, no blame being proved against him.

Dr. John Baraboisel has been elected Delegate to Congress from Utah.

## The Canal Repaired.

LOCKPORT, Friday, Oct. 3, 1851.

Boats passed the break in the canal at 8 o'clock this morning, it being fully repaired.

## Arrest of a Counterfeiter.

ST. JOHNS, Friday, Oct. 3, 1851.

A Hatter, named Burke, was arrested here today, and 600 counterfeit half dollars were found in his possession.
